ENVIRONMENTAL SCHOOL

National Garden Clubs, Inc. created the Environmental School – a series of four courses - that is designed to:

- Have fun with a practical economical approach to obtain a basic environmental education.
- Investigate, challenge and explore all aspects of the environment with a focus on the interrelationships of plants, animals, insects and people.
- Maintain and renew an energy efficient and sustainable environment.

The Environmental School curriculum developed by *National Garden Clubs, Inc.* is customized by each course instructor to align with local resources.

The series is four 2-day courses. Each course is 10 hours long and includes a 2-hour field trip.

A multiple-choice exam (open book / open note) is optional. Exams must be taken to be certified as a Consultant.

Classes are open to the public and to garden club members.

Bette Tang, CGCI ES Chairman
